

Welcome, let's talk business.

The motto on board of our Businessliner.

From mobile conference to club trip,

on board our Businessliner you find the tried and tested

GIGABus comfort optimised for smaller groups.

No matter if it's a business trip, politicians, OnBoard conference, Club trip or promotion tour, our business liner are optimised to your specific needs. On the main deck is our GIGABusiness-Class. The seating arrangement is 2+2. The combination of 90 cm seating pitch and modern armchairs allows unlimited well being.

In the back of our business liner II is our GIGALounge. Here you can find either 2 vis à vis seating groups plus 6 armchairs on a big table. Culinary treats await you in the GIGALounge. You have the choice, on our menu every taste finds his match. A feature to mention is that every dish gets solely served on porcelain tableware, the drinks of course in the fitting glass. Our stewardess serves, on request, also on the main deck right to your seat.

There obviously is a WC on board which you can use at any time, even during take off and landing.
